

## **Mr. Natarajan Swaminathan, CISA, CISSP, CISM** Senior Consultant – Enterprise Security and Risk Management

---

**Natarajan Swaminathan is a senior consultant, Cyber Security practice of TCS.** He joined TCS in 1995 after his Master's Degree in Computer Applications (MCA) from Regional Engineering College, Surathkal (aka NIT Surathkal) a premier institute and has served in diverse engagements in different parts of the world.

Natarajan has been playing instrumental role in the implementation & consulting of information security for the past 16 years after taking metamorphosis from playing different roles over nine years in software delivery. He has been playing key roles in winning customer confidence on information security during RFP and due-diligence exercises of some TCS' prestigious accounts across verticals. Some significant roles Natarajan has handled prior to his current responsibility have been as

- Running the compliance assurance program for a North American healthcare customer focusing on complying with HIPAA/HITRUST/PCI DSS/NIST CSF
- Performed several assessments on compliance to industry best practices in cyber security for customers across the world
- Running SOX implementation & testing program for a South American telecom customer
- Running SOX testing program for a North America based large engine manufacturing company
- Head Information Security for Retail & CPG operations of TCS handling information security compliance based on ISO 27001:2013 of around 100 customers that are serviced by 33000 associates across the world
- Information Security Lead for Chennai, India operations of TCS, handling security requirements based on ISO 27001:2005 of customers across verticals serviced by more than 20,000 associates in 11 delivery centers.
- Information Security Manager for North America Operations of TCS. Challenges include getting two of our delivery centers certified for ISO 27001:2005, continuously spreading information security awareness message to 11,000 associates across the Geography and handling incidents related to information security.
- Information Security Manager for a delivery center, Chennai, having 2,500 associates servicing customers in Retail, Travel and Telecom verticals.

Natarajan is a visiting faculty to a few Engineering colleges in Tamilnadu, given lectures about Governance, Risk, Compliance and software security

Natarajan is actively involved in ISACA Chennai chapter, presented papers on software security, DevSecOps, is a contributing member in BIS – ISO 27001 SC 27 Work group
