

## **Prof. M.J.Shankar Raman**

*Senior Advisor & Principal Scientist, IIT Madras*

A Computer Science and Engineering graduate from the University of Madras, M.J.Shankar Raman holds his post graduate degree from the Indian Institute of Science (IISc). Shankar Raman has more than two decades of rich experience in the IT industry, working for various companies such as HCL Technologies and Wipro Infotech in their R&D Division. He has worked for about a decade with the Cisco engineering team for their network management, security and ISP software.

Currently, he is acting as a project advisor for the Data Sciences and Secure Engineering group in the Computer Science department of IIT (Chennai) in designing and developing indigenous technology solutions in the areas of network and security and data sciences. Shankar Raman has submitted his doctoral thesis in the area of Internet power reduction at IIT Madras, and will be playing a critical role in the Consulting & Advisory practice of Unotech.
